DAO AD

ADVERTISING PLATFORM

DAO.AD

Self-service media buying platform, connecting advertisers to a quality network for monetizing traffic through **push notifications, video ads, in-page pushes, popunders, and Telegram mini-apps.**

PUSH NOTIFICATIONS

Dao.ad delivers push ads to more than 350 million users daily worldwide.

ADVANTAGES

- Compatible with most devices
- Transparent and visible for users
- High conversion rate

IN-PAGE PUSH

Browser-compatible messages displayed directly on web pages while users are active.

ADVANTAGES

- Ads are shown only when users are online
- 100% impression delivery rate
- Low bids for many geos

POPUNDER & CLICKUNDER

Ads displayed after a user clicks an element on a webpage.

ADVANTAGES

- Compatible with any webpage component
- No heavy integration required
- Fast loading
- Stable advertising format proven over many years

TELEGRAM MINI-APPS

Interactive applications that run directly inside Telegram, allowing businesses and developers to engage users without requiring additional downloads.

ADVANTAGES

- A native way to reach Telegram audiences
- Wide targeting options
- Convenient in-app formats

VIDEO ADS

Advertising displayed through video content and short video fragments.

ADVANTAGES

- Future-oriented ad format
- High user engagement
- Builds brand awareness
- Low bids and strong CR in many geos

PROGRAMMATIC

DAO.AD brings together trusted partners to provide maximum traffic monetization opportunities for its users.

WE OPERATE AS BOTH AN SSP AND DSP, SUPPORTING ALL MAJOR ADVERTISING FORMATS:

PUSH | POPS | VIDEO | INPAGE | NATIVE

DSP

As a DSP, we purchase and filter traffic using our own anti-fraud and anti-bot technology. Our system detects and eliminates low-quality traffic, helping advertisers achieve better conversion rates and maximize the return on their investments.

SSP

As an SSP, we supply pre-filtered, high-quality traffic to advertisers. We continuously evaluate traffic sources, exclusive partnerships, publishers, and maintain strict quality standards based on performance metrics and user feedback.

ANTI-FRAUD

NO BOTS — HIGHER PROFITS!

Traffic quality has been one of our top priorities since day one. That's why we developed our own anti-fraud and anti-bot system to protect advertisers and publishers from invalid traffic.

The **Dao.ad** anti-fraud technology analyzes traffic parameters in real time to detect, filter, and block bots, fraudulent activity, and low-quality traffic sources.

As fraud tactics continue to evolve, our system is continuously updated and improved to remain one step ahead of scammers.

SERVICE TOOLS

CREATIVE FREEDOM

Dao.ad is a self-service platform where users have the freedom to bring their ideas to life, using features and flexible options (Ads delivery manager, Creative & preview mechanics, Targeting menu, Limits menu, Postback menu and so on).

The only limit is compliance with content policies 😉

DAO.AD 24/7

SUPPORT

Users and traffic quality are our top priorities. That's why we provide continuous support to our partners around the clock, setting a strong example of responsive and responsible service.

Fast and competent replies—from support tickets in the dashboard to communication on web forums—have always been a core part of our approach to user support.

Fast payouts on request for publishers, as well as quick moderation of all campaigns for advertisers, are part of our team's everyday operations.
